

DD/M&S 74-1274

10 April 1974

NOTE FOR: Mr. Fitzwater

Mr. [ ]

Mr. [ ]

The DCI is planning a trip to Bell Laboratories on 8 May. This trip is being coordinated by [ ] who has a detailed agenda. This supposedly is an opportunity for the DCI to get some exposure to advanced data handling and display techniques developed by Bell Labs. The visit has been sponsored by Dr. Baker (President of Bell Labs or Bell Telephone) who is a member of PFIAB. This presentation is, therefore, at a high level and may be perhaps relatively pedestrian in technical content.

The Director [ ] has agreed that other interested people may attend. It seems to me that each of you should be able to nominate an appropriate individual; in the case of OJCS, perhaps [ ]; in the case of ISAS, perhaps you, Gail, yourself; and in the case of Commo, whoever is knowledgeable. Please advise me of your nominations by 15 April, and I will submit them to [ ] who can then keep the individuals informed directly as to the detailed plans.
